Featuring the Intelligent Charging System

Efficiency on a Budget

Utilize the powerful JAR Intelligent Charging System with a compact, lightweight storage solution that **won't break the bank**. Easy to use, dependable charging and sturdy all steel construction make this cart an **economical solution for large and small class sizes alike**.

Easy to Transport

Secures and transports up to 40 devices with ease. **Weighs in at over 100 lbs less than other carts**. Features top and bottom handles for easy maneuverability over different floor surfaces and thresholds. **Great for bringing technology to modular classrooms**.

Best in Class Charging

Power sensors and charging logic deliver the fastest possible charge and you never have to worry about tripping a circuit breaker. **LED status indicators** tell you how long the devices take to charge, which devices are receiving power, and when charging is complete.

Never Buy Another Charging System

JAR Systems is the industry pioneer in intelligent charging of mobile devices. Our Intelligent Charging System has been developed to be both powerful and easy to use. Just press one button to start charging!

Easy to Set Up, Easy to Use

Cut Wiring Time

A simple and effective cable management system, minimizing setup time. AC adapters are conveniently stowed away in a lockable storage compartment below the shelf, no clips or ties required. The cart supports both in-line and outlet chargers.

Power for Peripherals

An auxiliary power outlet lets you connect and control power to peripherals alongside the devices. Removable dividers allow for clear shelf space when the cart is not full. **Ask about configuration options for printers.**

Adjustable Device Bays

Two sets of hole patterns allow trays to be interchangeable between up to 30 bays at 1.3" wide and up to 40 bays at 1" wide. Additional dividers may be purchased at any time.
