

## Modular, Versatile Charging Stations

Charge and Secure  
**16 Chromebooks,  
 Tablets, or Notebooks**  
 with Each Module

Adaptable to flexible classroom layouts, device sharing, and more!

**NEW!**

*Affordable and Scalable Solution*

### Make it Mobile!

The convenient mobility kit makes the unit adaptable to flexible classroom layouts, allowing teachers to easily rearrange its position just as they would their tables and chairs to meet the needs of the day's lesson plan.

### Locking Cable Compartment

Easy to set up, but endures repeated use. AC adapters and excess cable lengths are stowed away in a securable compartment.

### Removable Dividers

Make room for peripherals and other small tech items in the station by removing steel dividers.

### Removable/Reversible Door

The door of the unit may be reversed to open on the opposite side or removed to adapt to the space that it is being used in.

### Standalone or Stacking

Integrate modules in multiple areas of a room as standalone units to improve the flow of deployment or securely stack them to save space

### Mount to a Wall or Desk

The compact and lightweight modular design allows it to be used as a free-standing system, or securely mounted to a wall or desk without taking up a lot of space.

### All-Steel Construction

The durable enclosures of flex-share charging stations guard devices against their environment.

#### SPECIFICATIONS

14.5"H x 22"W x 19"D | 48.5 lbs  
 Max Device Dimensions: 10.5"H x 1"W x 13"D

# Seamlessly Integrate Technology into the Classroom

## Product Upgrades and Accessories\*

### Stacking Kit

This option provides hardware which allows users to combine two Flex-Share units into one, making it possible to accommodate up to 32 devices without compromising on classroom space.

#CSE-2STACK-KIT

### Mobility Kit

An optional mobility kit consisting of four durable three inch casters and a push handle gives users the ability to easily move Flex-Share Stations around the room.

#CSE-MOBL-KIT

### Padlock Kit

The padlock kit makes it easy for organizations that wish to secure their charging stations with padlocks. The kit includes hasp hardware, which attaches to the charging station as well as an individually keyed padlock with two keys. An optional master key is available upon request.

#CSE-PDLCK-KIT

### Stacking and Mobility Bundle

The Flex-Share stacking and mobility bundle includes two Flex-Share Charging Stations, one stacking kit, and one mobility kit. When combined, they create a mobile solution for up to 32 devices that is ideal for moving devices around the classroom. *Assembly Required*

#CSEM-1615-2U

\*All product upgrades and accessories are sold separately and do not come standard.

**Five-Year Warranty:** Standard five-year warranty covers the entire solution.
