Max Device Dimensions: 12"H x 1"W x 16"D
(1) 12-Outlet Power Strip | 1 Plug to Wall
2 Keys and 1 Padlock Incl.

NEW

An Affordable and Adaptable Solution

Cost-Effective

Not all charging options make sense cost-wise for the number of devices they can accommodate. This solution is more cost-effective than other charging stations, and even costs less than cases to send the devices home with students.

Versatile Installation

The compact and lightweight modular design of the CS-1210 allows it to be easily mounted to a wall or desk without taking up a lot of space. The all-steel construction ensures the durability required for repeated use in classroom environments.

Unrivaled Adjustability

The adjustable height and depth of this solution, along with its removable dividers, allow it to comfortably fit a wide range of devices. This versatility makes the CS-1210 highly adaptable to evolving technology plans.

Proven Cable Management

The CS-1210 features an easy to set up cable management system that endures repeated use. A locking cable compartment securely stows AC adapters and excess cable lengths.

OPTIONAL ACCESSORIES

INDIVIDUAL DEVICE SECURITY*

Who needs expensive charging lockers? Use Kensington lock add-ons from JAR to prevent theft and boost productivity by reducing time spent looking for misplaced devices.

*All accessories are sold separately.

INTELLIGENT CHARGING SYSTEM*

Utilize one charging system to manage the power needs of up to four charging stations at once. This add-on is cheaper than other charging solutions and well-suited for central charging locations.

5 YEAR WARRANTY Standard five-year warranty covers the entire solution.
