Essential 16

Charging Station

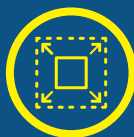

Great for 1:1 technology programs, small class sizes, large class sizes, charging in central locations, and more!

Spend Less

A more affordable option than other cabinets and charging carts, it can even cost less than protective cases.

Save Space

Compact and lightweight, the Essential 16 may be easily mounted to a wall or secured to a desk, saving floor space.

Get More Mileage

Constructed of steel, the station is highly durable for years of repeated use in classroom environments.

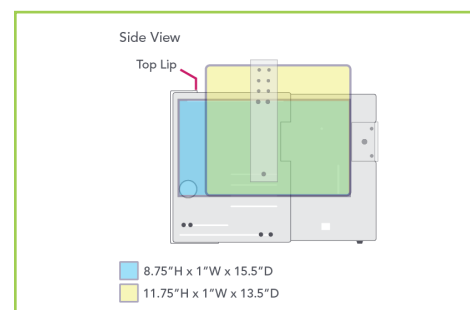

Essential 16 Charging Stations help you maximize valuable classroom space. The locking system prevents devices from being removed while providing an open design that allows teachers to see that all devices have been returned at a glance. Cut down on wiring time with a solution that is easy to set up, but endures repeated use. AC adapters and excess cable lengths are stowed away in a lockable compartment. Don't forget to spread team spirit—these solutions are also available in our line of School Pride colors in addition to the standard color blue.
