We Understand the Challenges of K-12 Technology Landscapes

You strive for excellence in technology integration to boost outcomes. For that, you need charging infrastructure that supports your goals. We understand how disruptive low battery issues can be, how important it is that charging technology is reliable, and for support to be quick and painless. That's why we design solutions-focused products and emphasize customer care from the planning stage to beyond deployment.

Free Your Team for Critical Projects
Boost Outcomes with Fewer Disruptions
Enjoy Quality Service with Less Hassle

Enhance the use of technology and remove obstacles to learning with our model-based guides that help navigate charging solutions options. These guides highlight some of our most recommended solutions.

Client Case Studies

Learn how Modesto City Schools increased instructional time and scaled modern technology district-wide with at-the-desk charging.

Learn more about Active Charge solutions on [page 11](#)

"Without JAR Systems, the use and integration of 21st-century tools in the classroom would be minimal to non-existent. The value that JAR has brought to our district is higher educational minutes in each classroom and the ability for the teachers to set their curriculum structure without interruptions. If you design technology in a classroom correctly, it just works, and the teacher does not have to think about it. That's exactly what JAR Systems did for our teachers."

Russ Selkin

*Chief Technology Officer,
Modesto City Schools*

*Affordably Modernize Your Charging Carts with USB-C
Compatible with a variety of carts.*

Spectrum Cloud 32 Cart

Spectrum Connect 36 Cart

Vivacity 30 Unit Cart

Anywhere AC Plus Cart

Bretford Cube Cart

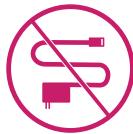

Make the carts you already have charge better and remain useful longer with a cost-effective Quick-Sense USB-C PD charging solution.

Efficient USB-C Charging

Quick-Sense USB-C charging identifies the devices' power needs to deliver a fast and balanced charge.

Stop Wiring Carts with AC Adapters!

Eliminate messy AC adapters! Save time by removing cable management processes from your team's workflow.

Spend Less

Upgrade carts with the more affordable option and save your team time and budget, rather than purchasing a full unit cart or station.

The Ultimate Solution for Your Esports Program!

Level up your esports program with the ultimate solution for charging and securing gaming laptops or workstations.

Efficient USB-C PD Charging

Quick-Sense USB-C charging identifies each device's power needs to deliver a fast and balanced charge.

Maximize Game Time

Easily transition any space to an esports environment with devices ready to play, ideal for limited practice time.

Keep Gear Organized

Store your team's peripherals individually in up to 12 device bays for an organized team deployment.

LEN PART #	78807342
CAPACITY	Up to 12 Devices with Peripheral Storage
COMPATIBILITY	Legion Laptops, Notebooks, Laptops, Gaming Devices, Workstations
DEVICE BAY	(12) 1.9"H x 17.9"W x 18.9"D Pull-Out Trays for Up to 18" Devices
DIMENSIONS	42.4"H x 28.5"W x 23.4"D
WEIGHT	165 lbs
POWER	(1) Quick-Sense USB-C PD 12-Port Charging Hub, 850W Max Output Per Hub

WARRANTY	Lifetime Station, 2-Year Charging Hub, and 1-Year Charging Cables

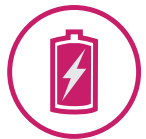

Keep Students' Devices Active Throughout the Day with At-the-Desk Charging.

Adapt12 Active Charge

Library Check-Out USB-C Charging Solution

Open6 Active Charge Starter Kit

Provide power bank check-out to students with bundled solutions designed to be placed in classrooms, pods, or central areas.

Reduce Disruptions

Eliminate the need for outlets, extensions, or power strips and enable student device charging at their desks while they are working.

Get More Mileage

Extend the usefulness of your old devices with diminished battery life. Power Banks are more affordable solutions to extra device sets.

Multi-Use Stations

Plug in Chromebooks, tablets and other devices beside your power banks. These versatile USB-C PD charging stations provide long-term value.

65W USB-C Active Charge Power Banks in "school bus yellow" are easily differentiated from other devices.

Ultra-Affordable — Fits Even the Lowest Budget!

Provide the essential charging and security features that schools need with a durable, adjustable station.

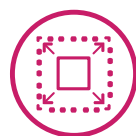

Efficient USB-C Charging Option

Quick-Sense USB-C charging identifies the devices' power needs to deliver a fast and balanced charge.

Budget-Friendly Solution

Essential Stations are more cost-effective solutions than other types of cabinets and charging carts.

Compact and Adjustable

With a compact, adjustable design it is easily mounted to a wall or desk and suits a wide range of devices.

AC version features locking AC adapter cable compartment.

12-user version available.

Modular Charging Solutions That Simplify Your Everyday Use of Devices.

A hybrid of flexibility in installation options and mobility that typical charging stations and carts do not provide.

Efficient USB-C Charging Option

Quick-Sense USB-C charging identifies the devices' power needs to deliver a fast and balanced charge.

Stand-Alone or Stacking

Integrate single stations in multiple areas to improve the flow of deployment, or stack them to save space.

Wall or Desk Mounting

Flex-Share can be used as a free-standing system or can be securely mounted to a wall or desk.

AC version features locking AC adapter cable compartment.

Stacking/mobile bundle available.
