JAR SYSTEMS

45W USB-C AC Adapter Cables

Qualities & Specifications

- ✓ Built to Endure Repeated Use
- ✓ Independently Tested for Safety
- ✓ 1-Year Warranty

Durable, High-Quality Construction

- Each cable is tested a total of seven times in production.
- The USB-C connector is reinforced using a laser technique, preventing it from coming loose with repeated use.
- Features a Cypress chip, which boasts the widest device compatibility on the market.

Safe and Energy Efficient

- Over current, over voltage, and short circuit protection with automatic recovery.
- Meets Energy Star 3.0 (EPA/DOE-Level VI) and California Energy Commission (CEC) efficiency standards.
- Carries UL, CE, and FCC safety certifications.
- Conforms to LVD, EMI, and EMC safety standards.

Versatile and Multi-Use

- Features a durable and compact case, great for use in carts, stations, or a wall outlet.
- Lightweight and easy for students to transport, it works well as an extra charger for students to carry home at night.
- The DC cable is long enough for students to reach an outlet with but can also be bundled small enough to fit easily in a charging cart or station.

Specifications

- Transformer Dimensions: 2.36"H x 2.36"W x 1.18"D
- AC Cable Length: 19.7"
- DC Cable Length: 68.9"
- Weight: 0.5 lbs.
- Input: AC 100-24V-50/60Hz 1.1A Max
- Output: 5V/3A 15W, 9V/3A 27W, 12V/3A 36W, 15V/3A 45W, 20V/2.25A 45W
