

Adapt4 AC

Active Charge Upgrade

Actively charge devices at-the-desk without connecting to an outlet!

Cost-Effective Solution

Spend less on a secure and adaptable station to provide easy, supplemental charging on an organization-wide scale.

Light, Yet Strong

Compact station able to be transported and durable to withstand high traffic environments, supplying charging to offices, central areas and classrooms.

Easy Upgrade to USB-C

The AC station can easily be upgraded from the removable AC tray to the Adapt4 Quick-Sense USB-C charging module later for newer technology.

The Active Charge upgrade for Adapt4 AC Charging Stations provides a better way to keep an active device in each student's hands. Easy to implement, it saves districts time by bundling four power banks to actively charge devices while in use and a charging station that can charge the power banks and mobile devices.

Make Old Device Batteries Last All Day

Connectors for Devices Without a USB-C PD Port

Emulator connectors are available to connect most common charging ports. Select the upgrade that includes cables for your specific devices.

Versatile, Multi-Use Charging Station

Adapt4 AC tray lets you easily re-wire to fit a range of charging applications from power banks to mobile devices that you may want to charge when not in use.

Powerful, High-Quality Power Banks

Active Charge power banks are durable machines with 65W output, sufficient to extend battery runtime of notebooks, Chromebooks, or tablets.

Customizable Security

This station provides flexibility for open charging, but it can also be locked for device security. The front door can even be completely removed.
