

# Flex-Share EDU USB-C Station

## Affordable Charging for Student Devices

Compatible with most  
65W devices.\*  
Optimized to deliver  
30W per Chromebook  
or tablet!\*\*

### Efficient USB-C PD Charging

Quick-Sense EDU charging identifies each device's power needs to deliver a steady, fast, and balanced charge for Chromebooks and tablets.

### Optimized for Students

The Quick-Sense EDU Line optimizes charging for devices with lower power demands to reduce battery heat and extend battery life.

### Stop Wiring Stations

Eliminate the need for AC adapters, saving your teams' time and resources, with our low-maintenance solution.

### Always Ready to Charge

Connect any device to the provided USB-C to USB-C dongle. Cables lock in place, so they are always where they are needed. Mix and match devices with emulator cables for different port types.

\*Compatibility may vary based on device specifications and charging protocols. If you're unsure whether your device qualifies contact JAR Systems for assistance.

\*\*Need more power? Check out the Flex-Share USB-C station, [CSE-1615-USBC](#)

### Modular and Versatile

Make your Flex-Share stations mobile with casters. Mount or stack them to fit your classroom needs. Featuring a reversible door for ease-of-access and removable dividers for a range of student devices.
