20,000 mAh
Active Charge Power Banks
with 65W USB-C 3.0 Charging Port
4x USB-C Connector Cables

Clutter-Free

Provide at-the-desk charging without relying on AC adapters, outlets, power strips across the floor, or expensive infrastructure modifications.

Portable Charging

Place power banks in centralized areas for students to check out as needed. Scannable serial barcodes provide easy asset tracking.

Get More Mileage

Extend battery runtime to maximize the use of older devices. USB-C PD emulator cables enable the connection of devices that do not have a USB-C charging port.

Reduce disruptions to learning with Active Charge Power Banks. Add these kits to your favorite carts or stations. The portable power banks fully recharge in under 2.5 hours for easy at-the-desk charging throughout the school day. They are equipped with 65W USB-C power delivery for hours of charging.

Charge Devices without AC Adapters or Outlets!

Save Instructional Time

Power banks enable students to connect and charge devices with ease. Reduce low-battery downtime in the classroom with clutter-free, at-the-desk charging, so the focus stays on learning.

High-Quality Power Banks

Active Charge Power Banks in "school bus yellow" are easily differentiated from other devices. With 65W output, they provide ample power to student devices so they can charge while they work.

Connect to Non-USB-C

USB-C emulator cables are available to connect to the most common charging ports. Select the kit that includes cables that are compatible with your specific devices. (Sold separately. See chart for details.)
