Charging Mobile Technology
in an Evolving Healthcare Landscape

Charging Solutions for Any Facility, Budget, or Program

Mobile technology is playing a more important role in healthcare than ever before, but care organizations also face increasing complexities in implementing devices. Choosing the right charging solution is an important element in keeping active devices in staff members' hands.

Create a charging infrastructure that supports organizational goals and streamlines mobile device workflows.

Actively charge devices while they are in use without being tied to an outlet.

Eliminate the need for wiring device AC adapters with USB-C PD charging and cut down on maintenance costs.

Leverage USB-C charging universally for new technology alongside legacy devices.

Save with Charging Solutions That Work for Any Device

Solutions powered by Quick-Sense USB-C work with any charging port type. JAR Systems carts and stations are flexible to accommodate a wide range of device types and sizes, from notebooks to phones. This enables long-term use of charging solutions even when devices are cycled out.

Charging for Tight Spaces and Small Device Sets

ADAPT4 CHARGING STATIONS

· Quick-Sense USB-C technology for fast, balanced USB-C charging —no AC adapter chargers required

· Lightweight, yet durable to be able to transport and withstand high traffic areas

Portable Power for On the Go Charging

ACTIVE CHARGE POWER BANKS

· Provide portable power for staff that is on the go and may not have access to an open power outlet

· Keep devices active for longer and reduce the need for costly spare devices

Modular Stations That Flex with Any Space

FLEX-SHARE CHARGING STATIONS

· Modular design with a reversible, removable door to adapt to different spaces

· Optional bundle of two units with wheels ideal for rearranging room layouts

Open Charging for Lounges and Meeting Spaces

UNIVERSAL USB-C DOCK

· Wide platform is an excellent base for fitting full-size laptops as well as small devices like phones

· Can also be secured with a locking technology cable to prevent removal

Low Maintenance Mobile Charging

ELEVATE CHARGING CARTS

· No need to wire AC adapters with Quick-Sense USB-C charging technology

· With removable dividers and auxiliary power outlets, they can be easily configured for custom uses

About JAR Systems

JAR Systems provides smarter, more versatile ways to charge and secure ever-evolving technologies. We work closely with our clients to develop products that support and streamline how mobile technology is used for learning and working in real-world environments. Our focus is on being a leading manufacturer of innovative charging solutions and designing efficient products that will work dependably for many years down the road.
