**\*May be subject to fees or additional costs**

### Handling Precautions:

Place each power bank in a separate plastic bag. Place non-conductive tape (e.g., electrical tape) over the terminals. If the Li-ion battery becomes damaged, contact JAR Systems for

specific handling information. Even used batteries can have enough energy to injure or start fires. Heed product markings regarding safety and use.

### Contact Us:

Reach out to JAR Systems with your questions and inquiries or visit: [JAR-Systems.com/Support](https://www.jar-systems.com/Support).

Batteries, electrical, and electronic equipment marked with the symbol of a crossed-out wheeled bin may not be disposed as unsorted municipal waste. When disposing of the power bank, comply with local laws or regulations for battery disposal.
